LOCAL NEWS OF THE WEEK.

Items of Local Interest Gathered by Reporters on their Rounds.

DOINGS IN AND ABOUT TOWN

Breezy Little Notes of General Interest Picked up Here and There.

Jesus Aceveda, of Solomonville, was a visitor in town Wednesday.

Justice Parks, of Solomonville, was in town a short time Monday.

Hon. George Skinner and family returned this week from a month's visit to Utah.

Contractor G. B. McCarty has just completed papering and painting several rooms of the Groesbeck hotel.

Extensive preparations are being made to hold an elaborate Children's Day entertainment in the M. E. church on the 9th of June.

The recent rains rendered a few miles of the railroad track rather "shaky" this side of Bowie, and delayed Monday's train for several hours.

The Athletic base ball team, of the valley, will play a match game of ball at Pima to-day. All base ball players are invited to be present.

John Dowdle called at the GUARDIAN office Thursday. He says that Zack Stallings has sold all his cattle to Mr. McKittrick of Wilcox at nine dollars per head. He also reports that the recent rains are bringing out the grass on the range of the San Pedro in an encouraging manner.

J. T. Owens keeps the finest line of shoes in town. 4-20 tf

Sam Watson, the genial driver of the stage which conveys the traveling public to and from Solomonville and the depot on the line of the G. V. G. & N., is supplying the people of the county seat with pure water from the Cienega.

J. T. Owens received word this week that he had been awarded the contract to furnish 120,000 pounds of flour to the White Mountain Indians, at Fort Apache. He was also awarded the contract of 480,000 of flour to be delivered at San Carlos.

If you want a good suit of clothing go to J. T. Owens. 4-20 tf

Orson C. Sheppard, one of the best brick and stone masons in the Territory has placed an advertisement in this week's GUARDIAN. Mr. Sheppard is a master machanic in his line and has made a specialty of heavy furnace and boiler work in San Francisco for several years past.

Silks! Silks! Silks! All kinds of summer silks at the Blue Store 4-20 t

Sherman Stewart, of Graham, desires us to call attention to his new advertisement which appears in the GUARDIAN's columns, announcing the season for standing his thoroughbred stallion, Corbett. This is one of the best horses in the valley, and all those desiring the service of a first-class trotting animal should call on Mr. Stewart, at his ranch and examine this horse.

We are pleased to be able to call our reader's attention to the new advertisement of H. A. Zeckendorf, the leading jeweler of Tucson, which appears in another column. Mr. Zeckendorf needs no word of praise from us as his jewelry store is well and favorably known throughout the territory, and by prompt and courteous treatment of customers, has won for himself an enviable name. A full line of watches, clocks, diamonds and jewelry of reliable make, can always be found in his stock. In the repairing department connected with this store competent workmen are employed and satisfaction guaranteed.

It's worth anybody's time to see Henry Dowdle ride that bicycle he got from Nathan Solomon. Henry says the "blamed thing is seven times worse than a broncho. It is a heap harder to mount and won't stand long enough to get my foot in the stirrup or thing-um-bob or whatever you call it. It don't buck quite so much as a broncho but it is a heap skittish and shies so much that it has me into the wire fence or the mesquite bushes or the ditches along side the road most of the time and once it tried to climb a cottonwood tree with me. Whenever it throws me off it don't leave me and fly away like the broncho but it generally jumps up and down on me and kicks me all over and then lies down on top of me. I don't have to feed it anything but it costs me a heap more for horse liniment to use on myself. If you see anything unusual hanging on the bushes or wire fences within two or three miles of my place you may know it is only strips of clothing I have lost on my pleasure trips lately.

ROTHSCHILD'S FORTUNE

At Present It Is Said To Foot Up To Ten Thousand Millions

The fortune of the Rothschilds has often been mentioned in print, but the Paris Signal gives some new and interesting information about it. According to this authority the total wealth of the Rothschilds family at the present time amounts to 10,000,000,000 francs, of which the French branch possesses 1,000,000,000. In 1875 they had less than half this sum, showing that their fortune has doubled in 18 years. In 1800 the grandfather of the present generation of Rothschilds had nothing, his financial success beginning after the battle of Waterloo. It is estimated that in 1905 their fortune will, if continuing to grow as heretofore, amount to the stupendous sum of 300,000,000,000 francs. The interest on this capital would be sufficient to sustain 27,000,000 people—that is, the entire present population of France.

Troop 1 After Indians.

On Monday evening last, Troop 1, of the First Cavalry, stationed at Ft. Bayard, New Mexico, pitched their tents in Solomonville, where they remained until Wednesday morning. The company was composed of fifty-three men with Capt. John Piteher in command accompanied by 1st Lieut. Jenks. They left Ft. Bayard on the 14th instant for Ft. Grant, going by way of Lordsburg, "Ranch 24," Duncan and Solomonville. The recent Indian report was the cause of the boys being ordered to make the trip through the country. They reported that they had not been able to see "Indian signs" but were anxious to take in a few scalp locks before their return to Ft. Bayard. The company is said to be composed of one of the most orderly lot of boys that ever entered the service.

Owen Woister, a writer for Harper's and other eastern periodicals, accompanied the officers and he is having a jolly time at outing. He and Lieut. Jenks are both fine musicians and furnished some of the Solomonville people a musical feast while there.

From Pine Top.

EDITOR GUARDIAN:—We had a grand ball and wedding here on the 18th inst. The contracting parties being Charles E. Nelson and Miss Emma C. Packer, daughter of Mr. and Mrs. Nephi Packer, of Bryce, Graham county. They were married in the dance at 8 o'clock, by Bishop Hansen. It was the largest gathering Pine Top ever had excepting the conference held here a few years ago.

I was talking to T. B. Nelson, of the firm of Packer & Nelson, lumber dealers here, in regard to the proposed wagon road from the Gila valley to Camp Apache. He says for six thousand dollars he can build a good wagon road from Safford to Apache, over which a common team can haul one ton.

DANIEL.

May 17th, 1895.

TO LUMBER DEALERS.

Proposals are invited for 5000 feet of lumber, to be delivered at Fort Thomas, 3000 feet to be 1x6x12 or 14, surfaced and sized, 2000 feet to be 1x12x12 or 14, rough, to be used for the dancing pavilion floor at Thomas at the mammoth Fourth of July Celebration. Address all bids before May 29th, 1895. Privilege of rejecting all bids reserved.

J. L. ALEXANDER.

Tests For Good Flour.

Good flour is white, with a yellowish or straw-colored tint. Squeeze some of the flour in your hand. If it will retain the shape given by the pressure. Knead a little between your fingers; if it works off soft and sticky it is poor. Throw a little against a dry, perpendicular surface; if it falls like powder it is bad.

NOTICE TO CONTRACTORS.

Bids will be received at the office of the undersigned for the delivery of 500 cords of wood, up to and including June 10th 1895, either at Fort Thomas, Geronimo, Mathews, Pima, Central, Safford, Solomonville or Bowie. No bid will be considered for less than fifty cords.

Specifications and form of contract can be had upon application.

MIDLAND CONSTRUCTION CO.

5-23t. Bowie Ariz.

The Safford Drug Company, with Mr. E. T. James as manager, place their advertisement in this paper this week. The new company will immediately enlarge the stock of drugs and chemicals and aside from being the best appointed drug store in the valley Dr. Porter will continue his office in the building, and in this way facilitate the compounding of prescriptions.

The only place in town to get Oranges, Bananas and Lemons is at T. T. Hunter's. 4-27-tf

TERRITORIAL.

Clipped and Condensed From Late Exchanges.

PASSING EVENTS OF THE WEEK

Happenings Throughout the Territory Edited With the Scissors.

With prudence and good judgment, there is no investment which will prove more profitable, more permanent or safe than those made in practical irrigation systems in Arizona, for land once brought under cultivation, which is made tributary to any given irrigation system, must forever contribute to the value of that system, for without the water the land must return to a desert waste, and with abundance of water, it yields more than a hundred fold annually, and as the years come and go, the land becomes more valuable by virtue of its improvement, hence the security of the investment grows stronger every year, as there is a gradual appreciation in the value of the land, not like unto mining, where the mine is being constantly depleted of its treasures, and must sooner or later be exhausted and abandoned.—Star.

—JO—

Between four and five hundred head of cattle came in yesterday from the Alkire range at New River and were placed on the Tom Boyle ranch north of town. In about ten days another drive of the same number will be made from the same range. The cattle have been purchased by Mr. Peterson of Tempe who will fatten them for the markets.—Herald.

—JO—

Mohave county will yet be the greatest placer gold producer in the world. Indications point strongly this way just now. Several gentlemen are carrying about the streets bottles of gold just brought in from the river, and all the result of a few hours work.—Miner.

—JO—

The affairs of Gus Smith deceased are taking a triangular shape. D. H. Ming was granted letters of administration in Graham county, and P. B. Soto the same in this county. Suit was brought against Ming by Soto, and now comes Julius Liberman and files a suit in the district court of this county against both Soto and Ming.—Sulphur Valley News.

—JO—

Hon. Mark Smith is one of the distinguished visitors in Phenix. Since Mr. Smith's term of office as congressman expired he has devoted himself to the practice of law at Tombstone. His many friends in the territory will be glad to know that he has refused lucrative offers, both in Washington and California, and will continue to make his home in Arizona. Mr. Smith will remain in Phenix for several days.

There is a rumor that the Republican state convention in Ohio this month will straddle the silver question by declaring that the matter may safely be left to the wisdom and good judgment of the next congress. And this from the state of McKinley. That will never do if McKinley expects the Republican nomination for the presidency.—Republican.

—JO—

Fair play is a jewel in politics as well as in other affairs and we know that the present investigation is and will be conducted on these lines. The Gazette believes that if any official derelictions exist in official circles such ought to be exposed and the official or officials removed. And now that this investigation has become so public and so much discussed, we trust that it will go on to the end, that justice may be done to the people and the parties charged.—Gazette.

—JO—

According to Los Angeles papers Hon. S. C. Baggs has made his little pile and abandoned Arizona. He will reside in Los Angeles and will engage in the window shade business, of which he holds a patent on some new invention.—Citizen.

Mad Dogs at Thomas.

Considerable excitement prevailed during the present week at Ft. Thomas, caused by the appearance of several mad dogs running at large on the streets of that town. Justice Reashua posted notices to the effect that all dogs running loose after a certain time would be shot; this had the effect of keeping many canines off the streets. The first dog which was noticed to act queer came from the reservation, and was supposed to have been bitten by a mad coyote. Many dogs have been bitten in and around Thomas and extreme caution is being exercised. On Tuesday morning six were shot and several are still running loose which will be killed at sight.

SILVER MEN'S CONVENTION.

A Large Gathering in the Tabernacle at Salt Lake City.

A special to the Sun says the Salt Lake business streets on May 16th were a mass of bunting and national colors. The streets were crowded with strangers from all parts of the West, who were in attendance on the silver Convention called by Gov. Rickards of Montana to discuss means to promote the interests of the silver cause.

At 11 o'clock a carriage parade was formed, which proceeded to the great Mormon Tabernacle, which had been loaned by the authorities and elaborately decorated.

Gov. Rickards of Montana called the Convention to order shortly after noon.

Fully two thousand people were present. Gov. Rickards made an address detailing the motive of the Convention, which he said was without party prejudice and irresistible because it was not partisan. "The common people of the whole country," he said, "are discontented with our financial conditions, and are turning en masse to the free coinage of silver as the great remedy."

Gov. West of Utah and Mayor Baskin delivered addresses of welcome, after which a temporary organization was effected and a recess taken until late in the afternoon.

In a speech before the Republican Territorial League on the 14th, Congressman Shafroth said the battle was on between the East and West regardless of political parties.

It is likely that a call for a national Silver League Convention will be issued to meet in St. Louis in March 1896.

A delegation was also appointed to attend the Bimetallic league of the South and Southwestern States to be held in Memphis June 11th and 12th.

Uniforms Ordered.

The Athletic base ball club, composed of players from the valley, between Thomas and Solomonville has ordered new uniforms which will be here in time to wear in the game between Thomas and Globe on the Thomas grounds on the 4th of July. The uniforms consist of Blue Gray pants and shirts, with the word Athletics in red letters in a half circle on the breast, gray caps, with two red bands, red stockings and red belts. The uniforms will be the handsomest ever worn by any club in the valley, and the boys will work hard to crown their initial appearance with victory when they cross bats with the Globe team.

Dance at Layton.

Last Friday night an immense crowd of young people, who enjoy tripping the light fantastic toe, assembled at Packer's Hall in Layton where a dance was in progress, under the supervision of Mr. Jesse Rollins. The Thatchers musicians were present and rendered excellent music. Dancing was continued until 1:30 in the morning and all present report an excellent time. Good order prevailed during the entire evening and Mr. Rollins deserves great praise for the success of the dance.

The committees on the Fourth of July celebration at Thomas, are making strenuous efforts to make it the celebration of the territory. The people of Thomas never do anything half way; they are advertising for 5000 feet of lumber for a dancing pavilion; they are also making arrangements with the railroad company for reduced rates, a schedule of which will appear in the GUARDIAN as soon as the arrangements are completed. No one who wishes to celebrate the Fourth should miss this celebration.

The well known firm of Solomon and Wickersham, doing a wholesale business at Bowie, Ariz. has added their name to our advertising list. This firm is one of the established business houses in this territory and only handle the most reliable articles. With the establishment of this kind in the country it is useless for retail merchants to buy their goods from either eastern or western houses when they can supply you with staple articles at a more reasonable rate.

The probabilities are that there will be a matched trotting race for \$500 at Thomas on the 4th of July. We are also informed that arrangements are being made to run a foot race. The parties who have made the challenge say they will run their man any distance from 50 to 250 yards, and will bet from \$50 to \$1000.

Mrs. E. T. James, and two children, who have been spending a few days in town, left for their home in Cochise County Wednesday afternoon. Mr. James, who is manager of the Safford Drug Co. will shortly have his family reside here permanently.

The Power Of Silver.

Francis G. Newlands, member of congress from Nevada, has added a story to the history of the Japanese-Chinese war that is interesting.

He is an ardent silver advocate, and his story is in support of the assertion that silver is the greatest of money metals. He said:

"It was during the time that James G. Blaine was secretary of state, I received a letter from the department, introducing to me a number of Japanese, comprising a commission who were in this country to investigate our money system. They told me that an agent from England had been in Japan trying to get their government to demonetize silver. They talked with Senators Stewart, Jones, Teller, Sherman, and others. They were warned not to think of allowing silver to be discharged as a money metal. The result of this investigation is that today Japan is the great power of the orient."

"What would have been the result had Japan done as England wished? When this question of a war with China arose Japan could not have carried on the war had she been upon a gold basis without first consulting England. A gold loan would have resulted, and England would have had Japan by the throat, even as she has us today."

England fears Japan more today than she does any other nation on the earth. Japan has been successful in her war with China. She has gained the concession of entrance to certain ports, and the right of commerce with certain districts is open to her. England views this with alarm. She would crush Japan in an instant if she dared, but the combined powers of the world will not permit it. England has no hold on her from a money point of view, and Japan, standing free and untrammelled, she will come out from the era of ignorance into the age of progress as the mightiest power of the orient. England is helpless. She cannot crush her as she did China, when that nation tried to close its ports to the Indian opium. England closed her silver mints in India, but Japan held out. Today Japan is going forward with a stride that is surprising. There have been as many spindles put up in Japan in the last two years as there have been in England in the last five years. How England will try to crush Japan is not known, but she will do all in her power to stop her growth, as she foresees that an empire is building up in the east that is directly antagonistic to her, so far as money basis is concerned. It will be the orient against the occident—silver against gold; and the practical demonstration, even for this short time, shows the great value of silver as a money metal.

Income Tax Nullified.

The income tax is declared unconstitutional in toto.

In the conclusion of its decision the court held:

First: "We adhere to the opinion announced that taxes on real estate are indisputably direct taxes; taxes on rents or income or real estate are equally direct taxes."

Second: "We are of the opinion that taxes on personal property, or the income on personal property, are likewise direct taxes."

Third: "A tax imposed by sections 27 to 37, inclusive, of the act of 1894, so far as it falls on the income from real and on personal property, being a direct tax within the meaning of the constitution, is therefore unconstitutional and void, because not apportioned according to representation."

There has been collected about \$80,000 income tax which will be refunded.

Justices Harlan and Jackson read their dissents; Justice Brown will do the same.

The Justices against the law are Chief Justice Fuller, Justice Gray, Field, Brewer, Shires; for the law Justices Harlan, White, Brown and Jackson.

A full line of Millinery Stock at T. T. Hunter's. 4-6-tf

Mr. Wm. Telfer, accompanied by Mrs. Hugh McMullen and Miss Clara Salkeld left this week for Mr. Telfer's ranch near Ft. Grant. They will remain away about a week.

The celebration at Thomas will be one of the largest ever held in this valley. Already men are employed clearing off ground for a race track and base ball diamond. An immense open air dance pavilion will be erected, which will accommodate a very large crowd. Preparations are being made to accommodate all the visitors and a jolly good time can be expected.

Miss Lee Hunter left on Tuesday's train for Corralitos, Mexico, where she will occupy the position of governess in the family of Mrs. David Gough. Miss Hunter will remain a few weeks with her father after which she will go to Los Angeles to complete her studies. She will graduate about Christmas.

Pima Happenings.

The genial face of J. N. Porter is once more smiling a welcome to his patrons from behind the counter.

A. Woods, of El Paso, called on our merchants this week.

Dr. L. E. Wightman and David Weech are taking up a subscription for the purpose of fencing and beautifying the public square at this place. This step is commendable. Money spent for public improvement is always a good investment and every citizen of Pima should contribute, that the effort may be a success.

Alice, the two-year-old daughter of Mr. and Mrs. Jessie B. Hayes, died Sunday morning of tonsillitis. The funeral took place Sunday afternoon and was largely attended. The bereaved family have the sympathy of the entire community in their sad affliction.
